SUMMARY

Full-Stack Developer (MERN) with 2 internships and hands-on experience delivering production web applications. Built and deployed client websites with RESTful APIs, SMTP integration, and responsive UIs. Strong in DSA, system design fundamentals, and clean, maintainable code.

EXPERIENCE

Full Stack Developer | Mharoo Media, On-site

Dec 2025 – Present

- Designed and deployed 3 production websites end-to-end using the MERN stack; built **mharoomedia.com** with SMTP-based contact form integration for automated lead capture.
- Optimized performance via lazy loading and code splitting; implemented secure RESTful APIs with rate-limiting and server-side validation.

Software Developer Intern | AI4SEE Pvt. Ltd., Remote

Aug 2025 – Nov 2025

- Built reusable React.js UI components, reduced code duplication, and improved frontend performance by eliminating redundant API calls.
- Integrated backend services via RESTful APIs and contributed to code reviews, improving product stability and development quality.

PROJECTS

Mharoo Media – Company Website MERN, SMTP, TailwindCSS | mharoomedia.com

2025

- Full-stack business website with SMTP email server for contact form routing; JWT-secured APIs and environment-based production config.

Fest Hive – Event Management System MERN, MongoDB, TailwindCSS | fest-hive-one.vercel.app

2024

- Real-time seat booking platform using atomic MongoDB operations to prevent overbooking; indexed queries for optimized API response times.

Job Search Web App | HTML, CSS, JS, Firebase, RapidAPI

2024

- Job discovery platform with Firebase Auth, Firestore security rules, and request debouncing — reduced redundant API calls by 20%.
